WHY HASSAN'S DISTANCE TABLES ARE SO POPULAR.

They will save you the trouble of asking questions when traveling.

They are valuable as a work of reference.

They are compiled from latest official sources, and carefully revised and corrected when necessary.

They are not intended for advertising purposes, but as a standard Guide, or Pocket Companion, for travelers and others.

They contain 112 pages of closely printed matter, giving Distances on all Railroads in the United States and Canada, General Distances to all parts of the World, Postage, Telegraph, and Hack Rates, Lists of Hotels, and other valuable information, in a condensed form, not to be found in any other book of the kind.

BUY ONE AND YOU WILL NEVER REGRET IT.

T. V. H. & CO.

ADVICE—READ IT.

Go to the railroad station in time to take the train, and secure a choice seat. Purchase tickets and check your baggage before entering the cars. Keep your head and arms inside car windows.

Beware of sharpers on railroad trains as well as in large cities. Almost daily parties are robbed by the various "confidence games," or by lending money on checks, bonds, or notes on prominent citizens.

Go not into gambling dens, even to gratify curiosity,—the visit will benefit you neither morally nor financially.

Do not allow yourself to be swindled by *hackmen*. The rates of charges, &c. ought to be found in every hack, and on no account should they be varied. We append the laws of the principal cities upon this subject, which should be adhered to strictly by *travelers* as well as by *hackmen*.

The admonition to beware of pickpockets is almost superfluous here, yet it may not be amiss to remind you that their favorite resorts are about the doors of theatres, street-cars, and wherever a crowd congregates. Never *unnecessarily* display your pocket-book when traveling.

RATES OF MORTALITY IN THE OLD AND NEW WORLDS.

It is generally supposed that the rate of mortality is lower in the Old World than in the New. Statistics, however, show that in Europe the annual number of deaths is 1 in every 42 inhabitants, but in this country it is 1 in every 81. In the Gulf States the average yearly proportion of deaths is 1 to every 63; in New England, 1 to 68; in the Southern States, 1 to 70; in the Atlantic and Mississippi Valley States, 1 to 80; in the Western States, 1 to 81; in the Middle States, 1 to 88; in the Pacific States, 1 to 115; in the North-western States, 1 to 120.
